

**We are looking for a**  
**Full Stack Engineer**

Sydpro is Australia's premier remote staffing provider with a satellite office in Colombo, Sri Lanka that began operations in 2014 with the aim of introducing the cream of Sri Lanka's ICT workforce, to contribute meaningful value to our Australian client base.

One of our clients in Australia is seeking a full stack engineer with a passion for creating great products for the users.

The right person will be an advocate for best of breed, who knows their stuff, and is keen to learn and grow.

**Success looks like;**

- Software delivery in fast and frequent increments
- It's understood that quality is a shared responsibility, peer reviews, unit and integration tests
- Agile mindset
- Continually improving team development practices
- Contributing to a culture of collaboration and helpfulness

**What you bring;**

- Excellent communication skills, working with a wide variety of people
- Passion for building innovative, quality software, intuitive user experiences that customers love
- Building and shipping great SaaS products
- Able to break down complex problems, deliver real world business outcomes and handle changing priorities
- Ownership and accountability

**Your experience;**

- Completed a tertiary-level degree in Information Technology (IT) or equivalent course
- Minimum of 3 years' software development experience, including a demonstrated history of full stack development
- Minimum of 3 years of experience across multiple versions of Angular, recent experience with Angular version 9 and above would be ideal
- Minimum of 3 years working within an Agile environment
- Web development experience including responsive UI design

An attractive salary package awaits the right candidate
